

#BENEFÌCIA

HYDRO SEALANT WET COAT TOUCH FREE SEALANT

Acid drop and "bird drop" protection

Beading and sheeting effect

Reduces the risk of scratches

Brightness and silkiness

DESCRIZIONE

- ▶ Self-activating enhancer for coating, based on polymer matrix, which kicks in upon spraying with water.
- ▶ It adheres to the surface for a long time and is resistant to acids, to alkali and to solvents.
- ▶ It reduces drying times and seals without using cloths or applicators, removing the root cause of the risk of swirl formation.
- ▶ Its polymer matrix quickly and easily assures to the body high protection, brightness, smoothness and lotus effect, assuring amazing beading and sheeting, plus a high hydrophobic effect.
- ▶ Utmost ease of use and easy correction of detailer errors (thanks to our exclusive "I Forgive You" technology).
- ▶ Thoroughly researched, developed and tested by Mafra laboratories in cooperation with the most prestigious sports car makers worldwide.

DIRECTIONS FOR USE AND DILUTIONS

In winter time use #BENEFÌCIA pure, in summer time or with hot temperatures dilute it 1:1. Before applying #BENEFÌCIA, ensure that the vehicle is clean and wet and the engine bonnet is not too hot; treat one panel of the vehicle at a time and rinse right away. Spray the product from the bottom upwards from a distance of at least 60 cm, to obtain a rose that is as wide and even as possible, and then rinse. Its strong water-repellence makes it possible to perform water film or air drying. Thanks to the same mother particle, layers of #REVITÀX, #BENEFÌCIA, #CUPIDO and #PERFÈCTA can be overlaid. If there are any product residues during the drying phase, remove them using our #PERFÈCTA quick detailer.
